

High-Assurance Certificates Without the Stress

DigiCert Instant Issuance Let's You Issue OV/EV Certificates at DV Speeds

Other Certificate Authorities can take days or even weeks to validate each certificate. **DigiCert Instant Issuance** is included with every OV & EV certificate, and you only have to validate once to get:

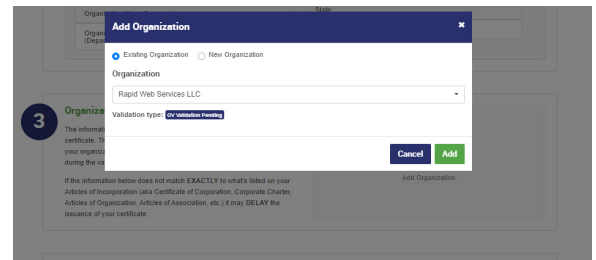

- ✓ Instant issuance on an unlimited number of certificates for one year
- ✓ A fast and simple process, without the typical waiting times or annoyances
- ✓ Industry-leading validation support, making your initial validation easy, too

Instant Issuance means you can build maximum trust with your customers without having to worry about performing the validation process over and over. **It's one-and-done with DigiCert.**

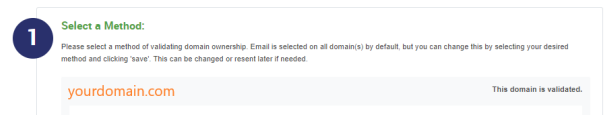

Frustration-Free Validation Made Easy

Getting your OV or EV certificate with **DigiCert Instant Issuance** is quick and straightforward. Just **login** to **The SSL Store™** and:

- 1 Place your OV/EV order like normal. If you haven't validated your organization yet, you'll go through the process with DigiCert's best-in-class validation times (as little as a few hours).
- 2 For subsequent OV/EV orders, you'll fill out the enrollment form and select your pre-validated organization.
- 3 Next, you'll complete Domain Control Validation if you haven't previously done so for your domain + organization pair.
- 4 For OV certificates, you're done. For EV certificates, you'll receive a verification call from DigiCert confirming your order, usually within a matter of minutes. Then your certificate will be issued instantly!

Selecting a Pre-Validated Organization

Domain Control Validation only needs to be performed once for each domain + organization pair.

Try DigiCert Instant Issuance today and take the headache out of OV/EV validation.
