

DigiCert is the industry's most trusted and widely respected provider of high-assurance TLS/SSL certificates, trusted by the world's top companies to secure billions of transactions, worth billions of dollars, every day. Since their founding two decades ago, DigiCert has been committed to doing what's right for the internet. From innovative tools to make the certificate lifecycle faster and easier to manage, to security solutions for the post-quantum computing age.

## DIGICERT SECURE SITE TLS/SSL CERTIFICATES

The industry's popular TLS/SSL certificate is now on trusted DigiCert roots. Whether you partner with us as a reseller, independent vendor or other technology provider, you can differentiate your offerings and build brand reputation with our Secure Site certificates. They include the patent-pending DigiCert® Smart Seal, the most advanced and adaptable symbol of trust online today, as well as priority validation to expedite your certificate issuance timelines.

## TOP 5 REASONS TO ESTABLISH TRUST WITH DIGICERT SECURE SITE

### 3 DIGICERT SMART SEAL

Patent-pending, globally tested and proven to help your website, login pages and marketing forms win the trust of customers.

### 1 MOST TRUSTED ROOTS

DigiCert is more than a certificate authority. We're a keeper of public trust on the internet, securing 89% of Fortune 500 companies, 97 of the Top 100 banks and 87% of encrypted e-commerce transactions globally.

### 4 INDUSTRY-LEADING MANAGEMENT CONSOLE

The best certificates demand the best platform. With enterprise-grade tools designed for automation and ease of use, DigiCert® CertCentral Partner simplifies certificate management from issuance to renewal.

### 2 HIGHEST LEVEL OF AUTHENTICATION

With Secure Site, you and your customers are assured the highest level of authentication, which means the highest level of consumer confidence in your website and your brand.

### 5 PRIORITY VALIDATION, PROVEN SUPPORT

DigiCert Secure Site customers get exclusive access to our fastest, most painless OV and EV validation processes.
